

About the Author

Shahir Anuar is a Malaysian pharmacist, innovator, and author who is passionate about nurturing young hearts through meaningful stories rooted in faith, hope, and compassion. He currently serves as the National Secretary for the Malaysian Mensa Society and is a dedicated advocate for children's mental health, particularly twice-exceptional (2e) children.

His work combines timeless Islamic values with relatable life experiences to inspire kindness, perseverance, gratitude, humility, and trust in Allah. He hopes that his writing will not only encourage young people facing mental-health and developmental challenges, but also inspire parents, educators, and caregivers to respond with understanding and support rather than judgement or stigma. "No one begins life hoping to become a failure."

Allah created every soul with the capacity to recognize both wrongdoing and righteousness:

Surah Ash-Shams, 91:7–10

وَنَفْسٍ وَمَا سَوَّاهَا
فَأَلْهَمَهَا فُجُورَهَا وَتَقْوَاهَا
قَدْ أَفْلَحَ مَنْ زَكَّاهَا
وَقَدْ خَابَ مَنْ دَسَّاهَا

"And a soul and Him Who perfected it,
And inspired it (with conscience of) what
is wrong for it and (what is) right for it.
He is indeed successful who causeth it to grow,
And he is indeed a failure who stunteth it."

— Translation by Muhammad Marmaduke Pickthall

Everyone has the potential to grow towards goodness. People may lose their way because of pain, illness, trauma, confusion, their circumstances, or the absence of proper guidance and support. They should not be reduced to their most difficult moments or defined solely by the mistakes they have made.

As a pharmacist, Shahir understands that medication can play an important role in restoring health, stability, and quality of life. Treatment is not a sign of weakness, nor does seeking professional help indicate a lack of faith. However, stigma, judgement, and inadequate support can deepen a person's suffering and discourage them from seeking the help they need.

Anas ibn Malik رضي الله عنه reported that the Messenger of Allah ﷺ said:

إِنَّ اللَّهَ حَيْثُ خَلَقَ الدَّاءَ خَلَقَ الدَّوَاءَ، فَتَدَاوُوا.

"Indeed, when Allah created illness, He also created its treatment. Therefore, seek treatment."

— This narration is reported in Musnad Ahmad, no. 12596.
